LANGUAGES

Spanish — Native
English — Native (C2 Cambridge)

METHODOLOGIES

Scrum / Agile (Jira)
Git Flow & code review
Microservices architecture
DevOps mindset

SOFT SKILLS

Teamwork & collaboration
Adaptability
Problem solving
Technical communication
International experience

CARLOS HOYO LIDDLE

Jr. Computer Engineer

TECHNICAL SKILLS

Cloud & Infrastructure

AWS Docker Kubernetes
Linux (Ubuntu / Debian / AlmaLinux)
Windows Server

Automation & DevOps

Git / GitHub Bash scripting
AI Agents (Codex, Gemini CLI)
OpenClaw workflow automation

Programming Languages and Software Development

Python Rust C++ Java
SQL (PostgreSQL / MySQL) TypeScript
Go (basic) HTML JavaScript CSS

Frameworks & Tools

FastAPI Node.js React / React Native Expo
VS Code Figma

PROFESSIONAL EXPERIENCE

Jr. Cyber Intelligence Analyst — Intern Constella Intelligence · Granada, Spain

Feb. 2026 – Present

- Engineered a high-throughput data pipeline in **Rust** for processing large-scale datasets and extracting PII in a production environment.
- Configured and deployed **AI bots** (OpenClaw) to automate critical internal workflows, replacing manual processes and improving operational efficiency.
- Integrated AI agents (**Codex**, **Gemini CLI**, **OpenSpec**) into automation pipelines, improving code quality and reducing task turnaround time.
- Version control with **Git/GitHub** and sprint planning via **Scrum / Jira**.

FEATURED PROJECT

StayIn — Flatmate Finder App

BSc Final Project (TFG)

Full-stack mobile application · In progress (2025–2026)

Frontend React Native + Expo Backend Node.js REST API

ML Service Python + FastAPI + NLP DB PostgreSQL via Docker

- Designed a **microservices architecture**: decoupled REST backend (Node.js), a dedicated recommendation engine microservice (Python / FastAPI) and a PostgreSQL database managed via **Docker**.
- Implemented an **NLP-based compatibility engine** that ranks potential flatmates by affinity from user profiles and peer ratings; roadmap includes ML model integration.
- Sole developer responsible for full infrastructure setup, API design, containerisation and mobile UI.

EDUCATION

BSc Computer Science & Engineering

Universidad de Granada
2021 – 2026

International Exchange — Erasmus+

Brno Mendel University · Czech Republic
Academic year 2024/25 (9 months)

ERASMUS+

Cisco CCNA — Networking Fundamentals Training

Full CCNA curriculum · Brno University of Technology · 2024/25

Completed official CCNA coursework & sat the Cisco certification exam (67% · cert. threshold 70%) — solid grounding in routing, switching, subnetting & network protocols.
