NATIONALITY

Spanish & British (dual citizen)
No visa sponsorship required — eligible to work in Spain, the UK & the EU

LANGUAGES

Spanish — Native
English — Native (C2 Cambridge)

METHODOLOGIES

Scrum / Agile (Jira)
Git Flow & code review
Test-Driven Development (TDD)
Component-driven UI

SOFT SKILLS

Collaboration with designers
Adaptability & proactivity
Problem solving
Clear communication
International experience

CARLOS HOYO LIDDLE

Jr. Computer Engineer · React & TypeScript

carloshoyo.dev

PROFILE

Computer Science graduate (2026) and **dual Spanish & British citizen**. Full-stack focused engineer passionate about the whole process of software development and turning wireframes and mockups into polished, production-ready products. Native-level English, results-driven and comfortable in fast-paced teams.

TECHNICAL SKILLS

Frontend

React TypeScript JavaScript HTML5
CSS React Native Tailwind CSS Vite Expo

UI, Design & Testing

Figma Responsive design
Component-driven UI

Tooling & Backend

Git / GitHub Node.js REST APIs FastAPI
Docker VS Code

Other Languages

Python Rust C++ Java
SQL (PostgreSQL / MySQL)

PROFESSIONAL EXPERIENCE

Jr. Cyber Intelligence Analyst — Intern

Feb. 2026 – Jul. 2026

Constella Intelligence · Granada, Spain

- Version control via Git/GitHub, maintaining the quality and reliability of the code.
- Engineered a high-throughput data pipeline in **Rust / TypeScript** for processing large-scale datasets in a production environment.
- Integrated AI agents (**Codex, Gemini CLI, OpenSpec**) into automation pipelines, improving code quality and reducing task turnaround time.

FEATURED PROJECTS

StayIn — Flatmate Finder App

BSc Final Project (TFG)

First independent project

Full-stack mobile application · Production-ready version in progress (2025–2026)

Frontend React Native + Expo Backend Node.js REST API

ML Service Python + FastAPI + NLP DB PostgreSQL via Docker

- Built the entire **frontend in React Native + Expo (TypeScript)**, translating **Figma wireframes and mockups** into responsive, reusable UI components through to release.
- Implemented client-side state management, navigation and API integration against a decoupled **Node.js REST backend** and Python / FastAPI recommendation service.
- Sole developer end-to-end: UI/UX design, component architecture, API design and PostgreSQL database via **Docker**.

Personal Portfolio

React · TS

Responsive single-page web app · github.com/carloshoyo

Stack React + TypeScript + Vite Styling Tailwind CSS Motion Framer Motion

- Designed and built a fully **responsive, animated portfolio** from scratch with reusable, component-driven UI and smooth **Framer Motion** transitions.

EDUCATION

BSc Computer Science & Engineering

Universidad de Granada
2021 – 2026

International Exchange — Erasmus+

Brno Mendel University · Czech Republic
Academic year 2024/25 (9 months)

ERASMUS+

Cisco CCNA — Networking Fundamentals Training

Full CCNA curriculum · Brno University of Technology · 2024/25

Completed official CCNA coursework & sat the Cisco certification exam (67% · cert. threshold 70%) — solid grounding in routing, switching, subnetting & network protocols.
